* Identify an example for each of the non-traditional life cycles*	
Types of Competitive Advantages	
There are two types of competitive advantages that exist in marketing; sustainable and non-sustainable	
Successful companies attempt to develop as many sustainable advantages as possible to stay ahead of competitors	
so Sustainable Competitive Advantage	
№ Non-Sustainable Competitive Advantage	

Sustainable Competitive Advantages	
50 Developing a unique selling proposition Creating awareness for the one feature your product/service has that competing	
companies do not have. Lowering Production Costs Implementing the use of cost efficiency, technology, etc in the production	
process. Outsourcing Servicing a Niche Market	
 Recognizing a need in the market before other competitors and as a result developing customer loyalty with that specific group. 	
 Creating Customer Loyalty Focusing on retaining customers, rather than losing them to competitors. Relationship marketing is a term used to describe customer loyalty, due to the relationship developed between the customer and company. 	
Non-Sustainable Competitive Advantage	
co Promotion	
∞ Promotion	
Placement Focus on where your products are sold, how they will get there and how the customer will be able to obtain them.

- so Services are activities performed for customers that are non-tangible in nature.
- Nalue added-services are those businesses that offer a product or additional service along with the service being provided.

Competition	in	the	Service	Industry
-------------	----	-----	---------	----------

so Convenience

Making an activity easier or more comfortable.

Degree of Service
 The range of services provided in a particular business.

so Selection

The greater the selection of services that are offered the more competitive a business will be viewed.

n Reputation

Being viewed in a positive light by the public.

price

If two services are similar the lower priced service will always be more competitive.

Homework Questions

- Identify 4 services that do not offer a value added option.
- Identify 4 value added services and explain how value is added to the initial service.
- Identify one product/service situation that fits with each of the sustainable competitive advantages.
- Identify one product/service situation that fits with each of the non-sustainable advantages.
- Explain three ways that competition for products is different than competition for services.
- Make a list of 5 products/services that you have bought (or your parents have bought for you) in the past 6 months. In your opinion what was the main competitive advantage that each of those products/services had over their competitors?
